### **About Foothills**

Foothills provides a coordinated system of effective response and intervention to children who have been victimized. The center's goals are to minimize trauma, promote healing, and ensure child safety. Foothills conducts forensic interviews with alleged child crime victims and provides crisis intervention and referrals for services and ongoing support to non-offending caretakers. Foothills is an accredited member of the National Children's Alliance (NCA) and primarily serves the City of Charlottesville and County of Albemarle.
